UPGRADING OF INTERSECTION AT MARMION AVENUE, LAGOON DRIVE AND PEONY BOULEVARD INTERSECTION, YANCHEP STAGE 2

The City, as part of its approved 2015/2016 Capital Works Program, is proposing to upgrade the intersection of Marmion Avenue, Lagoon Drive and Peony Boulevard, Yanchep Stage 2. The works comprise of:

- Relocation of existing underground Western Power Assets
- Extension of existing left turn lane on Marmion Avenue heading South and turning into Morwell Street.
- Extension of existing left turn lane on Marmion Avenue heading North and turning into Lagoon Drive.
- Installation of a New Street Lighting.
- Installation of Central median.
- Installation of Footpath

Work on site is scheduled to commence during the week of 22 February 2016, with completion anticipated within 12 weeks of commencement (weather permitting). The exact timing may vary depending upon the availability of the City's contractor, Western Power completing relocation of their assets and Main Roads WA completing the installation of the new line marking within the time frame.

Please find enclosed a copy of City of Wanneroo drawing numbered 2995-11-0 highlighting the extent of work at the intersection, noting that the enclosed drawing is presented as A4 in size, having been reduced from an A1 original.

During construction temporary traffic management will be implemented to safely manage traffic around the worksite. In the event of delays encountered from late installation of Signage and new line marking by Main Roads, the temporary traffic management arrangement will remain in place to safely manage traffic and pedestrians around the worksite.

Whilst it is inevitable that works of this nature will cause some inconvenience, every endeavour will be made to ensure that this is kept to a minimum. The City
considers that this project will improve resident safety and your support and co-operation would be greatly appreciated.

Should you have any queries in relation to this project please contact the City's Projects Engineer, Vee Moothoosamy, on telephone 9405 5065, in the first instance.

Yours faithfully

Vinesh Bappoo
